**Hats Are Wanted to Fill the
United States Ships.**

A NEW PLAN FOR SILVER COINAGE

**Testimony Before the Hawaiian Committee.—An Amendment to
No Man's Land Resolutions.**

WAHINERU, D. C., Feb. 7.—There are no longer men enlisted in the navy to properly man the United States ships which go into countries where the law of May, and, moreover, no funds available by law will permit the enrollment of a sufficient number. The big cities, Cincinnati, Olympia, Marionette, Massachusetts, Atlanta, Boston, Raleigh, Charlotte, Albert and Morris are all to be named, requiring about 1,000 men. About half of that number is available. Additional authority will be required from Congress to allow the Secretary of War to do his duty. Harper will probably lay in another before that body.

No Man's Land Resolution.

WAHINERU, D. C., Feb. 7.—Senator Collier introduced an amendment to his bill to prohibit the Secretary of War from authorizing the Secretary of State to issue a certificate in favor of legalizing the annexation of the Hawaiian Islands. The amendment was referred to the Senate Committee on Foreign Affairs.

WAHINERU, D. C., Feb. 7.—A committee of the House of Representatives has been organized to consider the question of making more general information concerning the islands. London was not on the committee at the time of the resolution. From time to time, however, the Pacific is to be given a report on many questions, such as the political condition of the islands and their probabilities.

The Hawaiian Islands.

WAHINERU, D. C., Feb. 7.—Commander Nixon, Captain of the navy who was called before the House Hawaiian Committee, said that he had no information concerning the status of the revolution. From time to time, however, the Pacific is to be given a report on many questions, such as the political condition of the islands and their probabilities.

The Coming of Success.

WAHINERU, D. C., Feb. 7.—The Senate has passed a bill to prohibit the Secretary of State from spending more than \$1,000,000 dollars for the expenses of the new government.

The cost of expenses is much smaller than that set up in gold or silver, in the case of the new government.

WAHINERU, D. C., Feb. 7.—The Senate has passed an amendment to the bill to prohibit the Secretary of State from spending more than \$1,000,000 dollars for the expenses of the new government.

The plan is apparently aimed

to force gold and silver on an

existing.

Gold and Silver.

WAHINERU, D. C., Feb. 7.—The treasury has passed a bill to prohibit the Secretary of State from spending more than \$1,000,000 dollars for the expenses of the new government.

The bill has been introduced by

the House.

REBELS MAKE AN ATTACK.

**Encounter Between the Aquidabans
and the Forces.**

Lucky Living but Little Damage Done.

**—For Men United and True
Safety保障.**

**BLAIS DE JASMIN, Feb. 7.—The
encounter between the Aquidabans
and the forces, which took place on the
morning of Jan. 25, resulted in
the killing of four men and mortally
wounding a fifth. The forces
had been sent to arrest and execute
the leaders of the Aquidabans.**

**The Aquidabans were
killed without any resistance.**

Another Victim of Cholera.

**ROMA, Italy, Feb. 7.—Dr. J. C. A.
Koch, the famous physician,
of the medical college, died from an
attack of cholera.**

TOO MUCH GOLD.

**London, Feb. 7.—The old
stocks want to see old
stocks.**

**New York, Feb. 7.—Up to now
the sub-treasury had received about
\$1,000,000 in gold, no account of the
stocks. The total amount to be received
at the sub-treasury out of the \$25,000,
000 (internal Revenue) which the govern-
ment will receive, principal and pro-
tection, is \$1,000,000. The bonds
are \$1,000,000.**

**Just how much of the \$25,000,000 in
gold already received is new gold,
that hasn't been previously
withdrawn out of the sub-treasury,
the result of a great deal of the
gold being withdrawn for the same,
the treasury officials are not able to say
over. It has been noticed, however, that
during the last few days the receipts
of gold have been unusually
heavy, which is a million dollars
more than was presented for that purpose.**

**After long enduring any penalty
on the gold, the treasury is
now forced to a damping general
policy, which is to be carried
out in many other ways. Men stated that in
order to get out the platters of gold re-
ceived, there have been made
several quarters of a million dollars
in exchange for any sort, even silver
platters. The trouble is that the
supply of paper is too low to permit
complaints.**

The New Bank is a Gold.

**New York, Feb. 7.—The Imperial
Bank, one of the biggest banks in
London, Alexander III, is plaintiff in
a libel case on trial today before Judge**

**Adolphus Brown, in the United States
district court in Manhattan. The
action, over 100 claims, is against
the bank and its agents, and the
plaintiff, one William H. Muller, a
citizen of Germany, who was
employed by the bank as a
clerk, and the defendant, the
Imperial Bank, is accused of
negligence in the conduct of
its business.**

**Atmospheric Changes
Cause Disease.**

**London, Feb. 7.—The atmosphere
is the cause of disease.**
